

NEWSPAPER TANGLE GROWS WORSE

STRIKE CONDITIONS COMPLICATED BY STEREOTYPERS WALK OUT.

Action Taken in Violation of Specific Order of International President of Union—Day Marked by Violence on Streets When Newsboys Made Efforts to Sell Papers Printed by Non-Union Pressmen.

Chicago, May 3.—After a day of turmoil marked by several assaults and a few arrests, resulting from attempts to distribute Chicago newspapers printed by non-union pressmen, publishers to night were confronted with fresh trouble when the stereotypers walked out of all the offices. The move was made by the workmen in violation of a specific order from James J. Freely, international president of the Stereotypers' union, for the men to remain at work.

The following statement was issued after the walkout by the local branch of the newspaper publishers' association:

"Because the owners of the Chicago daily newspapers would not permit a committee of the stereotypers' union (which had previously voted to strike), to sit as judge and jury on the questions at issue between the publishers and the pressmen's union the stereotypers' union tonight walked out of all the newspaper offices. This was done in distinct violation of the contract existing between the Chicago publishers and stereotypers' union and in face of a specific order from James J. Freely, international president of the stereotypers' union, who warned his local followers against such action.

"This strike by the stereotypers is the third contract-breaking walkout by the unions employed in the Chicago newspaper offices in the last 48 hours.

"To day was a day of violence and bloodshed on the streets of Chicago. Scores of boys and men who endeavored to sell afternoon papers were brutally assaulted by members of the drivers' union and sympathizers with the pressmen. One boy was taken by seven strikers to the Chicago river at the Madison street bridge and there on the point of throwing him in when he was rescued by a platoon of police. His assailants were captured and taken to the Des-Plaines street station. Another boy had his jaw split, and scores were beaten unmercifully. At least half within a short time after the stereotypers struck all the morning papers affected prepared to get out a four page paper.

FLOODS STILL THREATEN.

Panicky Conditions Exist Along Mississippi River.

New Orleans, La., May 3.—Panicky conditions prevailed today throughout the flood threatened territory along the Mississippi river from the Red river and Bayou des Glaises south to the Gulf and in the territory already stricken conditions grow worse. The river continued to rise rapidly at all points south of the Red river and throughout the day. A report went out from the town of Moravia, La. shortly after noon saying that the big Moravia Sea levee had broken. This proved untrue. This levee, one of the largest river protection dikes in the world was still holding to night, and it may continue to hold, but there are weak spots in it and it may go out any time. A telephone message to night from Highland just south of the big levee stated there was a large force working constantly on the dike.

Work to Hold Levees.

Baton Rouge, La., May 3.—Thousands of citizens worked all day and are working to night side by side with 300 convicts and negroes in a desperate effort to hold the levees against the torrential floods in the Mississippi creeping hourly towards the crest of the protective earth works about this city. Five hundred cadets of the Louisiana state university responded to the call for help and joined with school boys, boy scouts and soldiers, working eagerly to save the levees.

Bayou Sara to night is under from ten to fifteen feet of water.

BELIEVE MURDERER CAUGHT.

Topeka, Kans., May 3.—A man said to be Charles Marzyck, alleged to have killed the entire family of William Showman, father, mother and three children at Ellsworth, Kans., Oct. 15, last, is under arrest at Kamloops, province of British Columbia, Canada, according to information received here. Sheriff Samuel Bradshaw of Ellsworth county has applied to Attorney Dawson for extradition papers formally charging Marzyck with the murder. The crime was one of the most brutal ever committed in Kansas. The family was slain with an axe.

TORNADO KILLS SCORE.

Larned, Kans., May 3.—A score of persons were injured, some seriously and dozen houses destroyed by a tornado which passed east of here late this afternoon.

GOMEZ IN EL PASO.

El Paso, Texas, May 3.—Emilio Vasquez Gomez who has been proclaimed provisional president of Mexico by rebel elements, arrived in this city to night from San Antonio. It is announced that he will go to Ciudad Juarez to morrow.

IMPROVEMENT STILL ON INCREASE

TRADE IS OF FAIRLY STEADY PROPORTIONS.

Political Conditions Practically Disregarded and Better Feeling for Future Apparent in Most Sections of Country.

New York, May 3.—Bradstreet's to morrow will say: Though activity in some wholesale lines is not so marked as heretofore, dry goods for instance, trade in general is of fairly steady proportions and what is probably most significant current business is being done on a basis that allows of room for profits. In this respect the situation is quite the antithesis of what came at this time last year. With all, the season is backward, re-orders are slow, and retail trade, which had begun to show improvement has been considerably handicapped by cold, wet weather. However, temperatures this week have aided this branch of distribution.

Optimism is apparent in most sections of the country. There is more or less doing on fall account, political conditions are practically disregarded, and door work is more active, employment is absorbing surplus labor, the iron and steel industry is operating more freely and actual strikes are relatively unimportant. Trade in dry goods outside of the larger centers is of steady volume but in the chief markets business is moderate, with a tendency to halt, except in departments purveying wash and white goods suitable for summer weather. Wholesale dealers in shoes say current trade is only fair and immediate business with the retail interests is quiet, owing to unseasonable weather, but business on fall account is looking up.

Business failures in the United States for the week ending May 2 were 224, against 248 last week; 234 in the like week of 1911; 191 in 1910; 214 in 1909, and 288 in 1908.

Dun's Review.

New York, May 3.—R. G. Dun & Co.'s Weekly Review of Trade to morrow will say:

While the advance in industrial and trade activity is still gradual, evidences of improvement continue to multiply. The agreement to arbitrate the differences between the railroads and the engineers is a distinct help to the situation. The expansion in bank credits, especially in the west, the large output of new securities in April and the number of new incorporations—both greatly in excess of last year's—the notable demand for steel products and cotton and woolen goods, and the statistics of traffic and clearings, all reflect a growth in business. Reports from the leading trade centers reveal improving conditions, except in those cities, chiefly in the east where the weather was unfavorable.

New demands in iron and steel have diminished somewhat following the advance in prices, but mills generally are booked ahead practically to capacity during the second quarter of the year. In finished lines concessions are the exception rather than the rule, although wire products are being shodded. Adverse weather conditions in the early part of the week checked house trades in dry goods jobbers and retailers, and the distribution of seasonal cottons has been necessarily slow. Business in footwear for fall delivery is good, but as most manufacturers have not started to produce these goods the factories are not generally actively employed. Notable strength continues to characterize the entire market for hides and skins with especial firmness in calf skins, in the latter both domestic and foreign stock showing sharp advances.

AMUSEMENT LAW OBSOLETE.

So Declare Bishops of Methodist Episcopal Church.

Minneapolis, Minn., May 3.—Ministers of the Methodist Episcopal church appeared to be equally divided to night on the question of whether the church law prohibiting dancing, card playing, gambling and theater going, circuses and horse races should be abolished, as recommended by the board of bishops. On the ground that their investigations showed that two-thirds of the 2,250,000 members of the church either danced or went to circuses and theaters without regarding it as being sinful, the bishops declared that the church law against these diversions in force for forty years had become obsolete. They asserted that while the church would continue to protest against these forms of amusement, still it was better not to have any specific law on the subject than to have a law which was ineffective. John Wesley's injunction leaving the amusement question to the conscience of individuals, the 24 active bishops declared was the wisest regulation for "Americans of the Twentieth Century."

In adopting a resolution offered by James W. Anderson of Oklahoma, Iowa, denouncing Secretary of Agriculture Wilson for accepting the honorary chairmanship of a brewer's congress in Chicago last October, the conference declared that "President Taft, Secretary Wilson and Secretary of State Knox, have forfeited all claims on the future franchise of the Christian and sober manhood of the nation," because they had ignored appeals that no government official attend the congress.

CAMPAIGN UNDER WAY IN MARYLAND

ROOSEVELT MADE OUR IN EASTERN PART OF STATE FRIDAY

Taft Will Speak in Baltimore Today—Three Democratic Candidates Are Busy Seeking Support at Monday's Primary—Harrison Returns to Ohio.

Baltimore, Md., May 3.—The people of Maryland were forcibly reminded today that there will be the next chance to influence the nomination of a presidential candidate in each party. The anti-primary that has been gathering force since the first of the week is culminating in a burst of oratory. Three of the five candidates whose names will appear on the primary ballot were within the state today and a fourth will enter it tomorrow.

The presidential primaries next Monday will be the first elections of this kind in the state.

Under the law passed at the last legislative session the people will be able to express directly their preferences and few sections of the state have lacked opportunities this week to hear one or more of the candidates.

The names of President Taft and Theodore Roosevelt will appear on the Republican preferential ballot and the names of Champ Clark, Judson Hatmon and Woodrow Wilson on the Democratic ballot. Tonight Col. Roosevelt spoke in Baltimore, while the supporters of Champ Clark held a big mass meeting here. Col. Roosevelt toured the eastern part of the state today and will make a number of speeches in the country districts tomorrow.

Governor Wilson was the only Democratic candidate of those on the primary ballot who was not in the state today.

Governor Harmon made several speeches in the northern part of the state and returned to it tomorrow evening, but only to take a train for Ohio.

"I don't want to butt-in on another man's show," he remarked just before leaving.

Speaker Champ Clark made no speeches in the state although he visited friends in Montgomery county, which adjoins the District of Columbia.

Tomorrow President Taft will enter the state, early in the morning, and end a day's campaigning here with a speech from the same platform where Col. Roosevelt appeared tonight.

ILLINOIS BANK DEPOSITS GROWING

Increase of More Than Eleven Millions Since Report Made in February.

Springfield, Ill., May 3.—A statement of the resources and liabilities of the 576 state banks in Illinois on April 19, 1912, as compiled by the state auditor of public accounts, shows a large increase in deposits as compared with deposits on February 21, 1912, the date of the last statement. Total deposits April 19 were \$682,628,250.70, an increase of \$11,364,085.61.

Total cash and due from banks was \$184,532,672.99, a decrease of \$9,865,575.80.

The per cent of reserve to deposits, including amounts due to banks is 27.63.

On February 21, deposits of gold coin totaled \$6,108,605, and on April 19 there was but \$5,964,160 in gold coin on deposit, a decrease of \$144,445.

Total deposits of silver coin on February 21 were \$1,240,545.20 and on April 19, \$1,159,015.65, a decrease of \$81,529.55.

A total of \$12,813,239.87 is due from state and National banks less than was due on the date of the statement.

A large decrease in the amount of time certificates is shown. On February 21 the amount of time certificates was \$73,466,719.72 and on April 19 the amount of this form of liabilities was \$68,055,270.16.

Seven new banks have been licensed since February 21.

SOCIALISTS ELIGIBLE.

Des Moines, Iowa, May 3.—Attorney General Cossom to day ruled that, inasmuch as the Socialist party polled more than two per cent of the total vote cast for governor at the last general election, candidates of that party in any sub-division of the state are eligible for places on the ticket, providing they conform to the other regulations required of all candidates.

TRI-STATE MEET.

Keokuk, Iowa, May 3.—Arrangements for the tri-state meet to be held here tomorrow are complete. Nineteen high schools in Iowa, Illinois and Indiana will compete with a total of 24 entries.

END OF CONGRESS NOT YET IN SIGHT

Appropriation Bills Will Not Be Ready for Consideration Before July 1—Tariff Debate Hardly Started.

Washington, May 3.—After a series of conferences to day, Senator Penrose, the Republican leader of the senate, expressed the belief that it was a physical impossibility to consider the appropriation bills and other prospective legislation before, probably July 1. This would be after the National party conventions.

"I am anxious for an early adjournment," he said, "but the tariff debate has hardly started and some of the largest and most important appropriation bills are yet to be completed."

Senator Simmons in charge of the tariff bills for the Democrats, expressed similar views.

The approximate time of adjournment, however, is yet uncertain. Some of the senators and many representatives still believe that congress will be able to close its affairs before the conventions, despite the congestion in the senate.

CONSIDER SUBSTITUTE FOR FREE SUGAR BILL

Republicans of Senate Finance Committee Working on Measure—Disagree Over Duty Rates.

Washington, May 3.—Republican members of the senate finance committee to day took up the question of formulating a substitute for the house free sugar bill. They soon found themselves in disagreement over the rates of duty, but in the main were united upon the proposition to bring in a measure which would eliminate the differential and the Dutch standard.

A majority appeared to favor a retention of the rates of the existing tariff law, confining the changes to the standard and the differential.

The committee adjourned until tomorrow without reaching a conclusion.

The Democrat members of the finance committee also contemplated a meeting tomorrow when they will consider the Bristow sugar bill.

SPRINGFIELD WON VICTORY IN ATHLETICS

Twelfth Annual Meet of Corn Belt Association Held Friday—Bloomington Carried Off Honors in Oratory.

Springfield, Ill., May 3.—Springfield, Ill. High school captured the athletic contest in the Corn Belt Oratorical Athletic Association's twelfth meet here to day and Bloomington won first place in the oratorical contest.

Springfield's score in the meet was 29 points, made by placing ten of the fourteen events. Havana finished second with 21 points while Bloomington and Atlanta tied for third place with 19 points each.

The other schools finished in the following order:

Bloomington, fourth; 15 points. Decatur, fifth 12 points.

Mason City, seventh, 3 points. Normal sixth, 8 points.

Lincoln and Mt. Pulaski failed to place in any event.

Frazier McIntosh of Bloomington won the Oratorical contest with an oration on "The Rule of the People."

McIntosh of Decatur, who spoke on "The Recall of Judges" and Roy Deal of Normal on "Conservation of Childhood," tied for second place.

The hammer throw and discus throw will be discontinued after this year because of the danger attending them.

The first Saturday in May was named as the permanent date for the meet hereafter.

HONOR FOR DEAD.

Fifty-nine Bodies of Fatal Titanic Buried.

Halifax, N. S., May 3.—Fifty-nine bodies of the unidentified Titanic victims were buried here this afternoon.

Four bodies identified as having been Roman Catholics were buried with the rites of their church in Mt. Olivet cemetery, and nine Hebrews in the Hebrew cemetery, with customary ceremonies.

The remaining 46 were interred in Fairview cemetery where the scene was sad and solemn. One hundred blue jackets with bared heads formed a square around the graves while the bodies were being lowered. Brief orations were delivered and the royal Canadian regiment band played the dead march from Saul, and "Nearer My God to Thee."

The Canadian army and navy were represented by officers of rank at each cemetery.

KILLS GREEK FOR MONEY.

Kansas City, Mo., May 3.—Just as Geo. Seraphos, a Greek, was preparing to send the savings of two years hard labor, \$275, to his wife and two children in Greece that they might come to him, a young American today entered his room, took his money and killed him when he resisted.

DROWNED IN RESERVOIR.

Oshtemo, Ia., May 3.—Walter Osborn, son of James Osborn of Colorado Springs, a junior student in Pennsylvania college, was drowned this afternoon in a reservoir near the city.

TESTIFY ALLENS PREPARED TO SHOOT

WITNESSES AT TRIAL OF FLOYD ALLEN TELL OF THREATS MADE AGAINST COURT.

Cyrus Phibbs Swears He Saw Members of the Gang Reach for Guns in Preparation for a Possible Verdict—Court Clerk's Testimony Is Conflicting.

Wytheville, Va., May 3.—Evidence tending to show that the Allens came to Hillsville prepared to shoot up the Carroll county court, continued to be introduced to day at the trial of Floyd Allen, the first of the band of witnesses for the indictments for the assassinations of March 4.

Witnesses testified of Floyd Allen's threats toward the court and Cyrus Phibbs, a civil engineer, swore that on the day before the shooting when the Allen jury came into court to report a disagreement, Claude and Victor Allen prepared themselves for a verdict by reaching for their weapons.

Dexter Goad, clerk of the court, who was shot four times during the affray, refusing the charge that the court officers had begun the firing, testified he did not see Sheriff Webb draw his revolver. On cross examination it was developed that he had written a letter to the contrary. Webb was instantly killed.

HELD CONTEST IN DECLAMATION

Beardstown Won First Honors With Jacksonville a Close Second—Tallula Took Third Place.

In the annual declamatory contest of the Western Illinois High School league held at the Grand opera house Friday morning, Miss Verna Coll of Beardstown carried off first honors and Miss Florence Crane of Jacksonville won second place.

The opera house was filled to overflowing with friends of the ten contestants and the efforts of each were given well merited applause. The contest was presided over by Prof. G. H. Russell of Beardstown and the program was opened by a solo by Viggo Jensen, accompanied by Miss Carrie Dunlap.

The contest was one of the best that has been held in years and the winners of the first three places received very close marks. Miss Coll, the winner of first place received a first, second and a fourth; Miss Crane, winner of second place, received a first, second and fifth, and Miss Rita Zirkle, the Tallula representative who received third place, was given a second, third and fourth.

The efforts of all were well deserved by the hearty applause given them by the large audience. When the decision of the judges was announced at 12:45 o'clock it was greeted with cheer after cheer from the large crowd of Beardstown students who accompanied their declaimer and team.

The program follows:

Declaration, Re-united—Louise Robinson, Rushville.

Declaration, Ninety and One—Andrew Myatt, Ashland.

Declaration, How the LaRue Stakes Were Lost—Rita Zirkle, Tallula.

Declaration, The Lost Word—Edna Jooey, Pittsfield.

Declaration, Engineer Connor's Son—Florence Crane, Jacksonville.

Declaration, (a) Mother of Mine (Tours); (b) Song of Thanksgiving (Allitsen)—Mr. William P. Phillips, Illinois College of Music.

Declaration, Selection From Julius Caesar—Paul Watkins, Petersburg.

Declaration, The Sign of the Cross—Verna Coll, Beardstown.

Declaration, The Negro and the South—Ernest Glossop, Winchester.

Declaration, Ben and Judas—Nelson Zillion, Virginia.

Declaration, Main'selle—Flora Nelson, Greenwood.

Violin solo, (a) Obertass Mazurka (Wienlawski); (b) Soronata (Mozzkowski); (c) Polish Dance (Earl R. Drake)—Mr. Max Swarthout, Illinois College of Music.

Judges—Mr. U. Radcliffe Belle, James Millikin university; Prof. F. M. Austin, Wesleyan university; Prof. D. E. Watkins, Knox college.

Business Session.

At the business meeting which followed the financial report was read by Prof. R. O. Stoops, secretary and treasurer, and a good showing was made.

Officers were then chosen for the ensuing year:

Prof. O. H. Blossom, Pittsfield, president.

Prof. R. O. Stoops, Jacksonville, secretary and treasurer.

The next meeting is to be held in Jacksonville, the first Friday in May, 1913.

WANTED FOR FORGERY.

Clinton, Iowa, May 3.—John Haeppel, aged 30, wanted at Sterling, Ill., in connection with the charge of forgery of checks amounting to several hundred dollars, is under arrest here to day.

TITANIC PROBE MOVES SLOWLY

NO EVIDENCE YET TO SHOW THAT MONDAY MORNING TELEGRAM ABOUT DISASTER WAS HELD UP.

Jack Binn Testifies About Wireless Equipment of Vessels Near Titanic—Melville E. Stone Told of Efforts of Associated Press to Obtain News—Men Tried in Vain to Turn Bolts

New York, May 3.—The efforts of Senator William Alden Smith, chairman of the senate committee investigating the Titanic disaster, to confirm the report that a message telling of the Titanic's fate was received in New York early on Monday morning after the wreck have thus far proved fruitless after two days of examination of witnesses here.

"What concerns me most," said Mr. Smith to night, "is the Postal telegram given to the operator on the Carpathia early Monday morning addressed to 'Issetrank' and signed 'Yamsl,' which told of the sinking of the vessel and of the serious loss of life.

"I am most desirous of knowing where that message was the following two days and why it was held up. Franklin says he did not receive it until Wednesday. The Carpathian, which was in easy reach of the Carpathia, could have sent it, and the Carpathia's operator, Cottam testified that he had sent it."

Jack Binn, wireless operator on the ill-fated steamer Republic, called to testify to day concerning the wireless equipment of the vessels in the vicinity of the Titanic, said that the responsibility for the lack of news rested with Operator Cottam. While the Carpathia's equipment could only send a message 200 miles, he said, she was in touch with the Californian and the Californian could have relayed the news to the Olympic which could have sent it ashore.

Melville E. Stone, general manager of the Associated Press, was called to testify concerning the efforts of the Associated Press to obtain news. Mr. Stone presented documents and records showing the source of the various news dispatches concerning the disaster which the Associated Press sent out.

George A. Harder of Brooklyn, who with his wife, was of those saved from the Titanic, testified concerning the apparent failure of the mechanism of one of the ship's water-tight compartments to work. Harder said that when he went down to his stateroom to get life belts he saw four or five members of the crew with wrenches in their hands, one of whom was trying to turn a bolt in a plate in the floor marked W. T. C., which Harder said he assumed meant water-tight compartment. The witness said he heard one of the men say:

"It's no use, this one won't work. Let's try another."

Senator Smith will take the testimony of other witnesses to morrow.

BANKERS TO ADVOCATE SUPERVISION BILL

Committee Appointed to Support Measure Which Would Place All But National Banks Under State Control.

Chicago, May 3.—The movement on the part of the Illinois bankers' association to obtain a bank supervision bill designed to place all banks and trust companies under state supervision, excepting national banks, gained impetus today when B. F. Harris of Champaign, president of the association, appointed a committee of nine bankers to draft such a bill. The members of the committee are:

Charles G. Dawes, Chicago, chairman.

Ed Harburt, Chicago.

M. O. Williamson, Galesburg.

Edward D. Payne, Springfield.

John J. Doherty, Dwight.

W. M. Fogler, Vandalla.

F. B. Flanders, Noble.

John H. Wallace, Clayton.

E. T. Walker, Macomb.

The bill is intended to place all banks not under national charter under state supervision.

TROOPS IN READINESS.

Ordered to Embark at a Moment's Notice.

Monterey, Calif., May 3.—The 12th U. S. Infantry quartered here, received orders from Washington to night to be prepared to embark at a moment's notice. Company J of the 12th is sleeping in shelter tents by the railroad and will entrain early to morrow for Yuma, Ariz.

FATHER KILLS SON.

McAlister, Okla., May 3.—Attacked by his son, who wielded a razor, Judge John P. Colburn of Canadian, near here late to day shot and killed John P. Colburn, Jr., in the presence of his daughter. The son, who is about 24 years of age, had been absent from home for more than a year and returned last Friday. He had quarreled with his father several times since.

HIGH WATER AT CAIRO.

Cairo, Ill., May 3.—Railroad tracks in the drainage district north of the city are again under water and trains running into Cairo are compelled to creep through a sea of water which covers the wheels almost to the journal boxes.

The gauge tonight is 49.1 feet, a rise of six-tenths of a foot in 24 hours. The crest is expected tomorrow.

Missouri, south of Birds Point, is under water for many miles in all directions.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most modern uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

MAYOR DAVIS WRITES TO CHICAGO TRIBUNE

City's Chief Executive Calls Attention to Errors and Misstatements Made in Publication Last Sunday.

As a result of the Chicago Tribune's article last Sunday with reference to the Jacksonville water supply, Mayor George W. Davis has written a letter to the Tribune calling attention to some errors. The Tribune's article had unduly sensational headlines and suggested conditions which do not exist here. That the water Jacksonville is using now and has been using for months is very bad no one can deny and it is also true that the whole question of a permanent water supply is in an unsettled and unsatisfactory condition. However the Tribune was by no means justified in suggesting that health conditions are bad in that a typhoid fever epidemic is threatened. Such statements are calculated to do the city harm, especially its educational interests. With a view to have the Tribune refute its former publication in some points and so set Jacksonville in a correct light before Tribune readers Mayor Davis wrote the letter quoted below.

Letter to Tribune.
Jacksonville, Ill., May 2, 1912.
Editor Tribune, Chicago: I am writing relative to the story in your issue of Sunday, April 28, about Jacksonville's water supply. This story was written by Oscar E. Hewitt and contained so many falsehoods and misrepresentations that it will cause great injury to the city's business interests. I feel that in view of these facts you should at least rectify, as far as possible, the harm done by giving this the same quality that was given by Mr. Hewitt's article.

I believe that Mr. Hewitt is regarded as an expert on municipal research. If he is I would hate to meet with someone who knew nothing about such things.

In the beginning of his story Mr. Hewitt says that Jacksonville has reached the climax of forty years of fighting for a pure water supply. He also says that state intervention is probable. This has caused great alarm among many of our citizens. They don't know whether Gov. Denen is going to send a regiment of state troops here or whether he is going to send down the deputy game wardens now on duty in Chicago.

Another libel perpetrated by your expert is his allegation that the city water is only fed to low bred cows, hogs and grass. Mr. Hewitt was raised on a farm and he should know that water is fed to cows. As so he should have been informed during his four years at Illinois college that we have no low bred cows in Jacksonville. Even the cows owned by the home owners—or, Mr. Bryan would call them—the "common people"—are bred in the purple. Perhaps it is fed to hogs. But if it is, so far as can be learned none of them has the typhoid fever.

Mr. Hewitt also says that the Morgan County Medical society has become an aggressive factor in the battle. I believe he interviewed the entire membership of the society he would have found several members who are not as aggressive as he was informed. In fact, he would have found that some of them do not agree at all with those from whom he secured his information.

It surprised most of us that your correspondent acknowledged the fact that Jacksonville had gained fame as an educational center, despite the fact that what little he knows was learned here. The fact that we have produced three governors is something that every child in arms in Jacksonville knows, as also is the fact that we claim William J. Bryan. I also would like to state that we have more than three men capable of being governor of the state. It is quite likely that one of them will be chosen in 1916 if not the available agree at all with those from whom he secured his information.

If there was any doubt as to Mr. Hewitt being an expert in municipal research he demonstrated it in his allusion to Jacksonville lacking in municipal business sagacity. After making that statement he illustrates it by citing the borrowing of one hundred thousand dollars by Morgan county to build a court house. Of course, there is no much difference between a city and a county.

Your expert also is a lightning calculator in interest, as he figures the city spent \$256,000 in interest on the money borrowed to build the original water system. He might have gotten some definite figures from Commissioner Brown as to the total cost of the plant at the present time. He would have found them to be even larger than those he gave and it might have enabled him to add a little more interest.

He also says that water was first pumped from the Mauvasterre creek, which runs along the northern boundary of the city. It also runs along the eastern boundary of the city and there is where the water comes from. Not many people who have lived here all their lives can discover as much in a week as Mr. Hewitt did in about five hours. Yet he managed to discover that Jacksonville had sunk four artesian wells. The municipal authorities have been searching for the fourth well ever since he left.

Reference is made to a report by Prof. Bartow of the state water survey of the water from the sand beds along the Illinois river. This report says that it is exceptionally good drinking water, perfectly safe for domestic use, etc. Had Mr. Hewitt examined the reports of the city council he would have found a report practically the same that Prof. Bartow made as to the water from the Widenham and Daub wells sunk in the gravel beds along the Mauvasterre creek. Prof. Bartow in this report also says that the water from the Widenham and Daub wells and that from the sand adjacent the Illinois river are practically the same.

Mr. Hewitt says that the overflow of the Widenham and Daub

Pleasing The Whole Family

Each member of the whole family who drinks coffee will be pleased and satisfied if one of the Roberts Blends is used on your table.

THE PERFECT BLENDS

Blend No. 1—Listen, Roberts' Blend No. 1 Roast Coffee makes 50 per cent more liquor than the mild, cheap characterless coffees, and Oh! such liquor. Price only 45 cents per pound.

Blend No. 2—We consider this blend the most pleasing flavor and the greatest strength that is possible to produce for the price. A perfect blend and only 40 cents per pound.

Blend No. 3—Much like our Blend No. 2, a fine, rich coffee and one that pleases coffee lovers. Always the same and one of our best sellers. Price, only 37½ cents.

Blend No. 4—A very satisfying flavored coffee. Large handsome beans and very rich cup quality. Our Big Leader. This blend we recommend to coffee lovers for a universal satisfying cup of good coffee. Price only 35 cents per pound.

Blend No. 5—Beautiful, large, handsome bean and very rich in cup quality. Another of our big leaders. Price only three pounds for \$1.00.

BLEND NO. 6—OUR CHEAPEST COFFEE (BUT BY NO MEANS IS IT THE CHEAPEST COFFEE TO BE HAD). BLEND NO. 6 IS A TRUE BLEND OF OLD CROP COFFEE, A COFFEE SMOOTH AND RICH IN FLAVOR, A COFFEE BOUGHT EARLY AND SOLD ACCORDINGLY. OUR BIGGEST SELLER. PRICE ONLY 28 CENTS.

Certain Satisfaction Follows The Use of Sleepy Eye Flour.

If you read the daily papers you know that the wheat and flour market is advancing steadily. Present prices cannot remain long on Sleepy Eye flour so get in an order today. Sleepy Eye represents the last word in flour manufacture. The old prices still obtain:

Sleepy Eye by the barrel \$6.50
Sleepy Eye by the 42 barrel 3.50
Sleepy Eye by the 49 lb. sack 1.85

The delicacies we have would truly tempt a blind man. Ripe luscious strawberries reasonably priced are coming in every day now and we couldn't begin to name here the many "green" vegetables on the market.

You may send your youngest child here and we will wait on her just as carefully, just as pleasantly, and just as conscientiously as if you came yourself.

wells caused the city to again pump directly from the creek. The facts are that the Widenham and Daub wells have not been used for at least six months.

In regard to the health bulletin issued by the government in 1910 I would like to say that it does Jacksonville a grave injustice. All of the deaths at the Jacksonville state hospital for the insane are charged up to the city. If these were eliminated and the death of actual residents of Jacksonville given this city would have a death rate as low as any city in the state.

Today I received word from the pure food commission asking the condition of our typhoid epidemic. I wish to state that so far as I know there is not a case of typhoid fever in the city. Everybody is healthy and happy, despite the fact that they can't take a bath. Very truly yours,

SPLENDID PROGRAM.

Miss Mary Ebert Delights Audience by Her Work.

Miss Mary Ebert of Pontiac, gave a most interesting presentation at Woman's college Friday afternoon. She is a first year student and the program was quite informal. She gave "Sohrab and Rustum," by Matthew Arnold. She showed a wonderful intellectual grasp upon her selection and dignity and repose characterized her delivery. She is one of the promising students of that department. Miss Ebert is also a student of piano and she closed her program with a piano selection, which she executed in a commendable manner.

Local Evidence.

Evidence that can be verified. Fact is what we want.

Opinion is not enough. Opinions differ.

Here's a Jacksonville fact. You can test it.

Capt. H. W. Hill, 325 Church St., Jacksonville, Ill., says: "I was annoyed for months by too frequent passages of the kidney secretions. As I had often heard Doan's Kidney Pills recommended, I decided to try them and procured a box at Armstrong's Drug Store. Since using this remedy, I have felt much better. I have no hesitation in publishing this statement to be published."

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Hill had—the remedy backed by home testimony. 50c all stores. Foster-McBarr Co., Props., Buffalo, N. Y.

SENIOR PLAY WAS A GREAT SUCCESS

Triangle Club of the High School Presented "A College Cinderella" to Immense Audience at Opera House.

"A College Cinderella" was presented by the Triangle club of the High School at the Grand Opera House Friday evening. It is known as the senior annual play, one of the leading events in the calendar of the high school. Only highest words of praise can be given the student for the splendid manner in which they gave the musical comedy and the audience was one of the largest that ever witnessed a home talent production. For two months the students have been at work on the play and their consistent work was visible in every act.

Glen Skinner, who played the part of Zeka Bowman, chore boy and amateur actor, was easily the hit of the play and he kept the audience in convulsions of laughter over his clever comedy. His make-up could not have been improved upon and his work would well do credit to those who have been before the footlights for a long time.

In the part of Susie Watson-not Miss Irene Spears found ample opportunity to display her talents. She was good in her solo work and the interpretation of her part was most excellent throughout. Her solo, "I'm looking for a nice young fellow" made a hit. Perhaps the best heavy work was done by Miss Sylvan Peak, who interpreted the part of Madeline Morris, the Boston heiress. Miss Peak possesses much stage ability. Her solo "Waiting" was splendid. In Winnifred Priest, a better character could not have been secured to portray the part of Mrs. Pilsen, the boarding house keeper. Her make-up was the cause of much favorable comment. Miss Irene Straight as "A College Cinderella" interpreted the title role in a commendable manner and was at ease on the stage. Particularly was she effective in the chorus number "Let me peek into your heart." Prof. Cook took the part of Ed Seymour in a praise worthy manner. The comedy quartet composed of Messrs. George Tandy, Everett Long, Fred Stewart and Ross Lemmon was warmly received by the audience.

The idea of giving "A College Cinderella" was for the purpose of taking in just as many characters as possible. This included about 40, although not all belonged to the senior class. Complimentary mention could be made of each one in the play and all contributed their part in adding strength to the production. The costumes were designed and made by the High School Science department, under the direction of Miss Kate L. Brown.

Too much praise cannot be given Prof. W. G. Bate, who was the managing director of the play and it was certainly praise sufficient to know that everything was so splendidly done. Prof. Cook has also labored for the success of the production and William Allcott, as business manager contributed no small part to the success of the entertainment. One hundred and fifty dollars of the proceeds of the play will go toward the senior annual and the balance to the Students' association.

The play was divided into three acts as follows:

Act 1--Yard of Mrs. Pilsen's Boarding House. Morning.
Act 2--Parlor of Mrs. Pilsen's Boarding House. Afternoon.
Act 3--Dressing room of the Gynasium. Next Afternoon.

The success of the Women's clubs in this country depends upon the loyalty and co-operation of every member. The General Federation of Women's clubs is working for some of the great causes in which we are all interested--child welfare, including the children's bureau, better health laws, conservation of our natural resources, and better and more effective education. Results in such efforts cannot be brought about by one club, or any group of clubs, but all club women in the country working together.

Just at present the General Federation is hampered for lack of funds. The dues, 10 cents a year per member, are made small to enable every club in the country to belong, but the sum total is pitifully inadequate. We do not wish to raise our dues, but money must be had to carry on the great work. Therefore, it has been decided to raise an endowment of \$100,000. Illinois' share in this should be \$7,000. To help secure this fund, each club was asked to double its dues for one year. In Illinois, if every club did what was asked of it, the sum raised for endowment would be \$1,000. The remaining \$6,000 is to be obtained by individual subscription. In order that this may be done in the most democratic manner possible, we are asking for a small contribution from each club member, the amount of which is indicated by the enclosed card. We ask you to fill and return it in the self-addressed envelope. If you care to give more, it will be very acceptable. This contribution is small but if all respond, the sum will be one of which Illinois need not be ashamed. In helping in this matter, you can have the satisfaction of knowing that you are establishing on a permanent basis, this great democracy of club women. All contributions will be acknowledged.

Yours very truly,
Anne H. M. Sharpe,
Illinois Member of the Endowment Committee.

JACKSONVILLE FIRST IN MEET

WINS VICTORY, WITH BEARDS-TOWN A CLOSE SECOND.

W. I. H. S. L. Contest Attracts Large Crowd—200 Yard Dash and Pole Vault Records Broken by Local Athletes—List of Events and Winners.

Virginia	17
Pittsfield	14
Petersburg	11
Greenview	11
Rushville	7

Jacksonville's victory over Beardstown in a close race for first place and the smashing of two records by J. H. S. athletes, characterized the fourteenth annual meet of the Western Illinois High School League, which was held Friday afternoon on the Illinois college campus, before an enthusiastic crowd. Pittsfield and Virginia fought hard for third place, Virginia winning out by one point over her opponent, although three of the points secured by Pittsfield came through the toss up of a coin when Tripp of Greenville tied with Hanscom of Pittsfield for second place in the pole vault, Hanscom securing the toss.

A more ideal day could not have been chosen for holding the meet and while the crowd was not as large perhaps as last year, they were enthusiastic and displayed the real type of high school rooters. No accidents occurred to mar the day and all the visitors behaved themselves in a commendable manner.

The athletic contest was in charge of Illinois college men and they are to be congratulated upon the excellent manner in which they handled the meet. The fast time made was due to the work of Kelly Vaught, clerk of the course. All the events were run off on scheduled time and the crowd was able to disperse long before 5 o'clock.

The meet soon resolved itself into a strong race between Jacksonville and Beardstown for first place and the last event figured in the final score. The features of the meet were the breaking of two records by Jacksonville men, Strawn lowered the record on the 220 yard dash a fifth of a second, making the distance in 24 seconds. He pulled away from Yetter, his opponent in a tree and easy manner and crossed the tape some six feet in advance.

In the pole vault Cannon smashed the league record, going 10 feet 7½ inches, the former record being 10 feet 4 inches. The race for second place between Hanscom of Pittsfield and E. J. Tripp of Greenville was stubbornly fought and it was finally decided by flipping a coin, Hanscom being the winner. It was after this that Cannon went for his record, covering the distance after two trials.

The crowd gave him the glad hand upon his victory. Carter made a pretty race in the mile, although the event was run off in considerably more time than heretofore. It was due to the men looting too much at the start. The work of Cannon cannot be too highly praised as he labored strenuously to bring honor to his school. He was the highest individual point winner, making thirteen.

Strawn's feat in breaking the 220 yard dash was a great exhibition and his work ranks with that of Cannon. One of the great surprises of the meet was the showing of Pittsfield, who dropped to fourth place. Pittsfield had made such a fine showing in the Illinois Valley association meet held at Griggsville recently that many had picked that school as a winner of the meet. If Hanscom had not won the toss on the pole vault their record would have been 11 instead of 16. Beardstown was known to be strong and if all these athletes had been in proper shape, they would have given Jacksonville a still harder race for the pennant. The Virginia school is also to be commended upon their showing, having two firsts to their honor. It is the first meet in the history of the league that

three teams never scored a single point. This was true, however, of Ashland, Tallula and Winchester, although the three schools had fourteen men entered.

Beardstown won the relay race in good fashion. Reeve lost 20 yards on the first lap for J. H. S. and the other men could not make it up. Parker for Beardstown made a fine effort in making the final lap for his school.

The awarding of the prizes and donations took place in front of the grandstand following the relay race.

A Lapse of Memory.
A well known Jacksonville business man went to St. Louis one day recently and while there was a guest at the home of his sister-in-law. He was so well entertained that he suggested to his sister-in-law that she and her little daughter return with him for a visit here.

The invitation was accepted and later on the invited guests met him at Union station and came on to Jacksonville. Just as the train was pulling into the Alton station here, it flashed through the Jacksonville man's mind that his wife was without a cook and that one of his children was sick with the measles.

There was nothing left but for the St. Louis guests to travel a little further and they are now enjoying the hospitality of relatives in a nearby county. This was a case when a man's hospitality got away with his memory. Even so, he believes it was better to remember home conditions when he reached the station than it would have been to postpone the thinking process until he and his guests reached the family home. There, however, if he had been still having a lapse of memory, the measles sign would no doubt have restored his mind to its usual state of activity.

Even The Doors Are Different On A New Method Gas Range

It is not enough that these Gas Ranges consume 25 per cent. less gas, bake more evenly and quicker than any other gas range, are more easily cleaned, and non-explosive, but even the doors show an improvement over the old style.

The Doors split in the center. Yes, actually split in the center. When the door is open the upper section moves up; preventing the heat from rushing up into your face, the lower half moves down—forming a strong ledge—yet not projecting out too far and being in the way.

Every woman who has experienced the rush of heat into her face as she opened up the old style door will appreciate this improvement.

These Split Oven Doors are so evenly balanced that they stay anywhere you place them. There are no catching devices, locks, springs, etc., to get out of order as in the ordinary style door.

But the split oven door is only one of the 18 different ways in which the New Method differs from all other Gas Ranges.

We couldn't begin to tell of all the special features of the New Method Ranges in one advertisement, we couldn't in a dozen.

Come in and let us personally show you these special features, let us demonstrate each one in detail, let us show you how this feature saves gas, how this one insures perfect baking, how this one prevents explosions, how this one adds to your convenience, etc.

CONTRACT IS LET.

Joseph DeGoveia Has Carpentry Work For Bridge Company's New Building.

The addition to the plant of the Illinois Steel Bridge company which is in process of erection will add materially to the facilities for meeting the growing demand for their structural steel and bridge work. It is the intention of the company to handle the steel and concrete work themselves, but the contract for the wood work has been awarded to Joseph DeGoveia. The new building will have a dimension of 128x200 feet, which will give floor room double of that in the present plant.

The Monday Conversation club will meet Monday at the home of Mrs. W. H. Hinrichsen near Alexander. Mrs. Hinrichsen for some time was an active member of the club and still retains her connection with the organization. Each year she invites the ladies of the club for a meeting at her delightful home and the occasions are always of rare pleasure.

Mr. and Mrs. Alden Brown are now at 212 Park street, a residence Mr. Brown recently leased for a term of months.

GREENE COUNTY MEET.
The Greene County Second Year High school meet will be held today at White Hall. The athletic contests will take place in the afternoon and the literary contest will be held at night. The schools competing will be Hillview, Kane, Rockbridge and Patterson. Rockbridge is counting a great deal on carrying off the honors of the day, but may meet disappointment as the other schools are said to have strong teams.

Dr. T. O. Hardesty will go to St. Louis this morning to be present when his brother John, a medical student at St. Louis university, will be operated on for appendicitis.

Regular T. P. A. meeting tonight.

THE WEATHER.
The temperature for Friday, according to G. H. Hall of Alexander was maximum, 83 and minimum, 58.

BURIED IN DITCH

James Sloan was in Dangerous Predicament When Ditch Caved in Completely Covering Him.

James Sloan of 999 East Lafayette avenue was buried alive Friday afternoon while working in a ditch near Superior avenue on South Diamond street. The sides of the trench caved in, completely covering him with dirt so that it was necessary for his companion workmen to dig him out. If no one had been near at the time the accident happened it is doubtful if he would have escaped with his life. Mr. Sloan is employed by C. C. Schureman, plumber, and was engaged in putting in some piping on Diamond street. The ditch in which he was working was about ten feet deep and at the point where Mr. Sloan was stationed it crossed another ditch which had recently been made and filled in by the city. The dirt not yet being very solid, the dirt heaped up on top bearing down in weight pushed in the sides of the trench and Mr. Sloan was completely buried. The men, who were working with him, with shovel at once began to remove the earth and finally succeeded in lifting him from the ditch. Dr. Allen M. King was called immediately to give needed attention. The man's back was sprained by the weight of the dirt and his body was somewhat bruised but no bones were broken.

Regular T. P. A. meeting tonight.

CONGREGATIONAL BROTHERHOOD.

The regular monthly meeting of the Brotherhood of the Congregational church was held Friday night with a large attendance of the members. The address of the evening was made by J. P. Lippincott and was followed by an animated discussion. The election of officers resulted as follows:

President—J. P. Lippincott.
Vice president—L. E. Penfield.
Secretary—M. L. Robinson.
Treasurer—J. A. Palmer.
Class teacher—W. A. Furr.
The supper arrangements last night were in charge of R. P. Joy, W. O. Beall and S. A. Fairbank and everything was well managed.

Regular T. P. A. meeting tonight.

WAS PAINFULLY INJURED.
James A. Scott of this city who was injured recently by falling from a Northwestern train near Chicago was brought here yesterday day and is now at his home on North Fayette street. Mr. Scott was thrown from the train in such a way that his left side was very badly bruised and he is suffering greatly from shock.

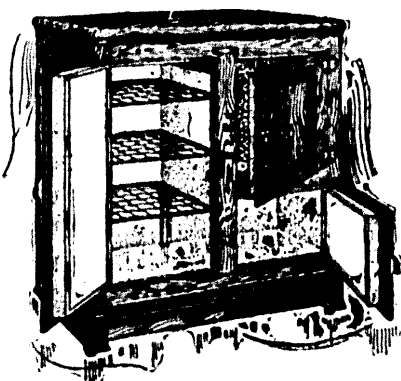

WILL TEACH AT WAYNESVILLE.
Ralph Tobin, who has been principal of the high school at Waynesville the past winter, has been re-employed for next year. Mr. Tobin graduated from Illinois college in the class of 1911.

CORN IS KING

AND MORGAN COUNTY IS HIS CAPITOL.

He is at home here. His subjects understand him and like him. He gives them every year full and satisfactory returns for all they do for him. Morgan county land costs money, but it is worth it. Land elsewhere can be bought cheaper, but it is worth less, and you never know when it is going to fail you. Morgan county crops never fail.

The best known real estate man in Morgan County.

For sixteen years we have talked this and nothing but this: Stay with the dirt you know. Keep your farm; or, if it is too small for you, buy a larger one that you know all about. We can sell you the farm, and we can get you all the money you need to pay for it—home money—Morgan county money—money that has been made, grown if you please, in Morgan county dirt, and that is not afraid to go back into it.

We have confidence in Morgan county land, and the money-owners of Morgan county have confidence in us, and for sixteen years the combination has been working well. We have always had the money to lend, and our money clients have never lost a dollar nor had to foreclose a mortgage of a farm.

DOCKET FOR MAY TERM CIRCUIT COURT READY

FRIDAY WAS LAST DAY OF SERVICE AND SEVERAL CASES WERE FILED.

Divorce Suit From Waverly Attracts Attention—Declarations Filed in Goveia and Fernandes Suits Against the Chicago Tribune—City Liquor Cases on the Docket.

Friday was the last day of service for filing cases to be heard at the May term of the Morgan county circuit court. In consequence it was a day of more than unusual activity in the office of Circuit Clerk Rawlings and the office was not closed until after 9 o'clock Friday night. Several suits of more than usual interest were filed during the closing hours.

A. L. Hamilton of Waverly has instituted divorce proceedings against his wife, whom he charges with infidelity and with making threats to do him bodily harm. William Darley is named as correspondent. Mrs. Hamilton's maiden name was Avis Hamilton and she was married to Mr. Hamilton in 1894. They have one son 17 years of age and Mr. Hamilton is asking for the custody of the son. The suit Mr. Hamilton has filed against William Darley was mentioned yesterday. The declaration was filed yesterday and sets forth the claim that Mr. Hamilton is entitled to damages of \$10,000 on account of the alleged conduct of Mr. Darley toward Mrs. Hamilton. W. N. Hairgrove and Kirby, Wilson & Baldwin are representing Mr. Hamilton.

W. D. Whorton has entered a suit against the Jacksonville Street Railway Co. for \$1,500. He is represented by Judge Layman and T. F. Smith.

Another suit filed yesterday was that of the City of Jacksonville against the Chicago Tribune. There are forty-one counts in the bill which City Attorney Hairgrove has prepared and he will attempt to recover \$100 on each count each covering an alleged violation of the city statute with regard to the sale of liquor. The complete docket for the term follows:

The declarations in the suits for damages against the Chicago Tribune company have been filed. One sets forth that Joseph DeGoveia is the owner of an automobile and was unlawfully referred to in the Tribune's article last Sunday regarding the Jacksonville water supply; that the said complaint contains a representation for honesty in this community and that the suggestion of wrong doing in the Tribune article has damaged his reputation. A declaration of like character was filed in Mr. Fernandes' case.

As "Ed" Howe Sees Life

Is every man a tremendous egotist, and perfectly honest in thinking himself better than others?

There is little enthusiasm that will not cool in the presence of real danger.

The man who should listen and learn, usually does most of the talking.

A woman might as well propose; her husband always claims she did.

Farmers probably dislike town people most because they do not eat more radishes, which are easier raised than an other thing grown on a farm.

Patent medicine advertisements are attractive reading for women, because they have a great deal to say about women who suffer in silence.

When you call on a woman, look at her; don't let your eyes roam around the room as though looking for dirt. This is one thing that always makes a hostess mad.

After a man reaches seventy, and recovers from an illness, people wonder why he didn't have it over with, while he was about it.

If there were no schools to take the children away from home part of the time, the insane asylums would be filled with mothers.

When a girl's pocket book looks bulky, she has her handkerchief in it; a girl never has any money.

STORIES OF O. HENRY.

A Promised Visit and the Drill Way It Was Evaded.

Wherever one goes one hears a story
of the late O. Henry, the writer. Ev-
ery one in magazine circles hereabouts
knew him, and most had had a per-
sonal experience or two. Somehow ev-
ery story illuminates the man. They
are not merely humorous tales, but
through them one catches a glimpse of
his characteristics, his broad humanity
or his generosity or his love of the city.
Robert H. Davis, the magazine man, re-
lated that on one occasion he went
a-visiting with O. Henry down on Long
Island.

"It was a very hot day," said Davis.
"We had climbed an everlasting hill.
Another greater hill stretched before
us. The sun was a disk of brass, and
dust and heat and clicking insects rose
from the ground. We sat on a fence to
rest."

"Is there anything else I can show
you?" I asked him.

"Yes," said Henry, wiping his fore-
head. "Show me a return ticket to
New York."

"On one occasion he had promised to
spend the week end with Gilman Hall
at his country place in Jersey. Mr.
Hall had invited him several times.
When Henry finally accepted Hall gave
him the most precise directions.

"Take a 3 o'clock train on Friday
afternoon," said Mr. Hall, and I will
meet you with the car at the station."

"At 11 o'clock on Friday morning Mr.
Hall was called to the telephone in his
country home. The boy at the railroad
station droningly informed him that
there was a telegram for him, signed
"O. Henry."

"Read it," commanded Mr. Hall, and
the boy's sleepy voice buzzed over the
wire.

"New York," he read, "Twenty-third
street substation, Western Union Tel-
graph company, 10:30 a. m. Addressed,
Gilman Hall, Far Out, N. J. Dear
Hall—I have missed the 3 o'clock train.
Signed, O. Henry."

"Neither Henry nor Hall ever refer-
red to the telegram or the evaded visit
in subsequent talks."—New York Let-
ter to Cincinnati Times-Star.

His Rare Old Painting.

Speaking of fake antiques and forged
paintings an art amateur said:

"There is an American who bought
a Raphael in Rome some years ago.
The Italian law prohibits the exportation
of masterpieces, and the American
had the happy idea of getting the
Raphael painted over. This was ac-
cordingly done. The rare old painting
reached New York in the guise of a
modern snow scene.

"Then the restorer, under the watch-
ful owner's eye, set to work on it.
With a sponge dipped in turpentine he
proceeded to rub the snow scene off.
He sponged it off readily, but he
sponged a bit of the Raphael off, too—
and, behold, underneath the Raphael
a portrait of Marconi was revealed."—

The Dutch at Church.

Men still wear their hats in church
in many parts of Holland. Moreover,
smoking in church is not considered
irreverent by the Dutch when service
is not in progress, and the ministers
themselves indulge in this practice.
Altogether, according to a recent vis-
itor, "the Dutchman has a very com-
fortable form of religion. You keep
your hat on in church and that saves
you many a chill; you talk freely and
in your natural voice, not in a whis-
per; you have a neat housemaid in a
white cap and apron (and nothing is
more cleanly and charming than a
Dutch servant maid) to show you to
your seat or to offer you a chair; you
have nice drab pews of painted deal all
around you and a cheerful two decker
pulpit above."

Slow Development in the Child.

Remembering that Balzac, Walter
Scott, Daniel Webster and the great
educator, Froebel, were counted as
dullards in their youth, the importance
of allowing certain minds a slow de-
velopment is manifest. A child who at
fourteen is learning numbers may at
forty compose a great epic or discover
a new element. Through kindergarten
methods, manual training, physical
and industrial exercise, dancing and
military drill, the attention is arrested,
the slumbering mind is roused, the
wandering will be recalled.—Rheta
Childs Dorr in the Century.

Some Are So by Nature.

A certain young man, who prided
himself on a brusqueness that he mis-
took for wit, met an eminent, but
touchy, sculptor at a studio supper.
"So you're the chap," he said, on
being introduced, "that makes mud
heads?"

"Not all of them," the sculptor re-
plied, quietly.—Youth's Companion.

Speculating and Gambling.

"Congratulations, old man. I hear
you have been speculating successful-
ly."

"No; I lost money."

THE KOLA NUT IN AFRICA.

It Plays an Important Part in the Lives of the Natives.

In the parts of Africa where it grows the kola nut is much esteemed by the natives on account of its stimulating and other properties, and it occupies a large place in African legends, as well as in ceremonies and cults. These tribes have been aware of its power as a stimulant from time immemorial, and it is also used as a remedy for marsh fever and other maladies.

It is used as a pledge of friendship or affection, as an offering to fetish men and also as money or for paying tribute. In the Bambara and other regions a young man sends a basket of white and red kola nuts to the father of a young woman whom he desires to marry. If the father consents he keeps all the nuts, but if not he keeps the white ones and returns the red.

The kola tree is much respected, and the belief is strong among the natives that if one of them plucks a flower it will bring him bad luck. Among the Bagas a tree is planted at each birth or notable occasion. In the Dlorugu region when a chief goes through the ceremony of naming his child he plants a kola tree, and this afterward belongs to the child.

In the whole of the Sudan region the kola nut is a symbol of friendship, and as it is an article of luxury the act of offering it as a gift is taken as a mark of the wealth of the giver. Eating the kola nut together is a sign of friendship, and it would be a great offense to refuse to do this. Treaties, vows or compacts are made, binding in the same way.—Chicago News.

KEATS' LOVE AFFAIR.

It Was But Another Disaster of the Last Days of the Poet's Life.

Keats' way of love was by no means a way of happiness. The object of his passion was a Miss Fanny Brawne, whom he had the fortune or misfortune to meet at the Dikes house. She has become fairly well known in Keats' bibliography as "a brisk and blooming very young beauty of the far from uncommon English hawk blond type."

Her affection for Keats seems to have been real, but limited by a rather shallow emotional capacity. His for her was enfevered with doubts and questionings not only about the reality of his feeling toward her, but about his falling health and his uncertain prospects. Disease had already weakened him when he met her, and between the fire of disease and the fire of love his vitality was rapidly consumed. Love proved to be but another disaster to lighten the tragic suffering of the last eighteen months of his life.

When, finally, he went to Rome, accompanied by the artist, Joseph Severn, he turned his back on love along with the rest of life. He died in February, 1821, and was buried in the Protestant cemetery, a place made so beautiful by the flowers that grow there the year through that it makes one "in love with death to think one should be buried in so sweet a place," as Shelley wrote not long before he, too, died.—New York Post.

Musical Conductors.

It is a significant fact that most of the great conductors have spent their apprentice years in mastering some solo instrument which they have used as a stepping stone to the broader and ultimate work of conducting an orchestra. Arthur Nikisch was at the beginning of his career a violinist in the royal orchestra at Vienna; Richard Strauss made his formal debut not only as leader of the Meiningen orchestra, but as a pianist also, playing a concerto by Mozart. Felix Weingartner, Dr. Muck, Emil Paur, Rothwell and Oberbiller were first pianists of distinction before becoming conductors. This list could also be carried back to Hans von Bülow, the prince of pianists and conductors, and to Felix Mendelssohn, who inaugurated the famous Gewandhaus concerts.

Spoiled the Sport.

A gentleman from London was invited to go for "a day's snipe shooting" in the country. The invitation was accepted, and host and guest shouldered guns and sallied forth in quest of game.

After a time a solitary snipe rose and promptly fell to the visitor's first barrel.

The host's face fell also. "We may as well return," he remarked gloomily, "for that was the only snipe in the neighborhood."

The bird had afforded excellent sport to all his friends for six weeks.—London Answers.

He Was Sarcastic.

Clerk (to woman who has fingered over everything in the store without buying anything)—Excuse me, madam, but are you shopping here? Customer—Certainly. What would I be doing? Clerk—I thought perhaps you might be taking an inventory.—Woman's Home Companion.

OUR NAVY'S FLAGS

Each Vessel Carries Nearly a Ton of Bunting.

EMBLEMS OF ALL NATIONS.

Some of the Designs Are Quite Expensive, and, as a Rule, the Smaller the Nation the More Costly Its Banner. Uncle Sam's Flag Emporium.

On every vessel of the United States navy, from the monster battleship to the tiniest tug, is stowed away nearly a ton of flags, which go to make up the number each vessel is required to carry for use on different occasions. About half of this vast pile of flags consists of emblems of foreign nations. The making of the flag equipment for the navy costs more than \$30,000 a year. Each ship carries forty-three foreign flags, which are thirteen feet wide by twenty-five feet long.

As a ship's quota of flags is renewed every three years it is no small undertaking to keep them replenished, and to this end Uncle Sam keeps a large flag-making establishment running at full time the year around at the Brooklyn navy yard. Employed there are some hundred skilled needlewomen working, cutting the different colored bannings into the required widths and sewing them together. Making the United States flag is not a difficult job, but the making of some of the foreign emblems is quite a different matter, and this is what most of the work at the flag establishment consists of.

Take, for example, the flag of San Salvador. In the background there is a belching volcano pouring forth its lava and white smoke. On the sides of the mountain is the green foliage and shrubbery, while directly in the foreground is a tranquil sea of sapphire blue. Above the volcano is a rising sun set in a design of overhanging cornucopias and a diamond from which the rays are scintillating in every direction. To the left and right of the belching mountain are draped in varied designs banners which bear a similarity to the stars and stripes. Around the whole concentration is a wreath of cactus branches lovingly embracing the volcano, while at the top of the date of the country's independence is inscribed. To make a flag of this description costs the government \$52.50, and when one of these flags is placed on each ship of the navy every three years it can be readily seen that the insignificant little republic to the south of us is really costing the taxpayers of the country more than has ever been thought of.

The flag of Costa Rica, with its scenic beauty of mountains and sea, is another extravagant emblem, costing something like \$50 to complete. So it seems that the smaller the nation the more costly its flag.

The largest flag made by the United States is the Ensign No. 1, which measures thirty-six feet long and nineteen feet wide. The cost of this monster is \$40 or thereabouts.

The president's flag, while not the largest by any means, takes longest to make, requiring the labor of one person for a month to complete it. It is of simple design, being a blue field with the coat of arms of the United States in the center. The life sized eagle with outstretched wings and other emblems are all hand embroidered and involve the most patient work. The embroidery silk used on this flag, which is fourteen by ten feet, costs \$9 a pound.

Uncle Sam's flag emporium is in charge of his flagmaster, whose business, among other things, is to test all the bunting bought by the establishment. One day a sample lot of bunting is soaked and washed in soap and fresh water, the next day the same process is followed with salt water. It is then exposed to the weather for ten days, thirty hours of which time must be in the sunlight. This is termed the color and fading test. Another test is always made for the tensile strength. A strip of the warp two inches wide is placed in a machine and must stand a pulling strain of sixty-five pounds, while two inches of the filling must stand a forty-five pound strain.

All over the floor of the workshop are arranged chalk lines and metal markers by the aid of which the flags are cut out. Large stripes and certain designs can be more conveniently stitched this way. The sewing is done by women on machines run by electric motors. It is an interesting sight to see the big machine at work cutting out stars for the United States flags. It is the only machine of its kind in this country. It consists of a plunger fitted with steel knives the size of the star, wanted, and with a single downward stroke it lays on a table 100 stars. There are eight different sizes of stars used for the different flags, and of course the machine is provided with the eight different dies for the purpose. Until recent years these stars were cut out by hand, which was a long and tedious task, but now a day's work of the machine will supply stars for a week's work on flags.—Harper's Weekly.

Sufficient Evidence.

"What makes you think that man will be a valuable addition to our staff of salesmen?" asked one partner. "The cleverness and serene assurance he displayed in getting me to give him a job," replied the other.—Washington Star.

The secret of success lies in having more confidence in yourself and less in others.—Walter Kane.

UGANDA'S ROYAL SUICIDES.

Kings Who Drank Poison When Sick—ness or Age Threatened.

Some of the curious customs of a pastoral people of Uganda, known as the Banyoro, are told by the Rev. John Roscoe. He said that when once a king was enthroned his person became sacred, and his food was restricted to milk and beef from a sacred herd of cows, which were kept apart from other cows.

The Banyoro monarch never allowed himself to grow old or his faculties to become impaired. When he thought he was going to be seriously ill he called a council, arranged the state affairs with the principal chiefs without giving them any reason for thinking that he was about to die and dismissed them to carry out his instructions.

Then he returned to his private house and summoned his chief wife and ordered her to bring a cup of poison. He drank the contents and in a few minutes was dead. The widow thereupon called one or two of the principal chiefs, who prepared the body for burial. For as long as possible the death was kept secret. Each day the milk and beef were brought to the royal residence, and inquirers were informed that the king was suffering from an indisposition which required him to rest.

In the meantime the chiefs were engaged in making private arrangements to guard the body and protect the sacred herds of cattle during the wars which would follow on the announcement of the death. When the news leaked out the sons of the dead king fought among themselves, brother killing brother. The survivor became king and attended his father's funeral.

At the ceremony several of the widows of the deceased king were clubbed to death, as were the cowmen and the cook. Other widows took poison. All the bodies were placed in the grave, the idea being that their ghosts should minister to the ghost of the king in the next world.—London Standard.

BUNCH THEIR WEDDINGS.

Only One Day in the Year For Marriages in Plougastel, Brittany.

In the city of Plougastel, in Brittany, France, all marriages take place on one and the same day. The men are all fishermen, many of them going as far as the Newfoundland banks, and are at home only during a few months in the winter. One day in early February is set apart for the weddings. Little courting is done, but much haggling over the dowry of the girls. They have to bring a certain quantity of linen, chickens, pigs and vegetables. Frequently a match is broken off because the girl's father refuses to add a sack of potatoes to the dowry.

On the day set the inhabitants of the entire region go to Plougastel. The whole population goes to church to hear mass, to take communion and to witness the wedding ceremonies. Often fifty or more couples are united on the same day. Bride and groom do not walk together until the ceremony has been completed. For the rest of this and the whole of the next day every house is open to receive guests and to provide food and drink for them. On the evening of the second day the young men carry the dowries of the brides to the houses of the grooms. There they dance and frolic until early morning, and, after they leave, the couple are for the first time together and alone. During the remainder of the year no marriages are concluded.—Leslie's.

Brutal Conduct.

"But why are you determined to get a divorce from your husband?" "Because he is an absolute brute." "You amaze me. You used to say that he was as gentle as a child." "Yes, that's what I used to say. But you ought to see him now! Listen! Since the baby began teething nothing would quiet the little darling but being allowed to pull his papa's whiskers. And when he found that out what do you think he did? He went down and had his beard shaved off. That's what! Do you think I'd live with a man that has that sort of disposition?"—Cleveland Plain Dealer.

The Hamburg Stock Exchange.

The public rooms of the Hamburg bourse, subject to very mild rules conducive to good order, are open to all, with very few exceptions. Their use is definitely forbidden "to all female persons," to individuals who have been deprived of their civic rights, who are under some form of judicial restraint, who have been adjudged guilty of fraudulent bankruptcy, persons adjudged to be in simple bankruptcy, those unable to meet their obligations and such as are forbidden the use of the bourse through the decision of the court of honor.

Disguised His Vocation.

"What is your occupation?" asked the good woman as she handed out the fourth roast beef sandwich. "I am an ex-pounder, madam. My delivery has become impaired and I find it very difficult to get a bout," answered the weary traveler. Thereupon the one time pugilist took his leave and the good woman murmured, "Poor fellow!"—Judge.

Might Have Got More.

"I always have hard luck." "What's the matter now?" "I borrowed a dollar from my wife yesterday, and she had to break a five dollar bill to let me have it!"—Detroit Free Press.

The Rest Was Easy.

She—I am weary of being a bachelor girl. He—Well—er—do you know I'm a bit sick of being a spinster man.—Boston Transcript.

THAT BAD COLD.

Vapor Treatment Surely Does Clean Out That Stuffed Up Head in Record Breaking Time.

Don't try to break up a cold with dangerous stomach disturbing drugs. Get directly to the inflamed membrane by breathing HYOMEL (pronounce it High-ome). Get a bottle for 50 cents at Coover & Shreve's and try this rapid and economical treatment that thousands are using. Into a bowl of boiling water pour a teaspoonful of HYOMEL, cover head and bowl with a towel, and breathe deep into the lungs the healing vapor that arises. Breathe this vapor for five or ten minutes until the head feels fine and clear, then go to bed and sleep soundly until morning. No cocaine or opium or harmful drugs in HYOMEL. It is guaranteed to end catarrh, or money back.

THROW OF BUYERS CONTINUE

Special Price Brings Many Patrons to Coover & Shreve.

The people of Jacksonville and vicinity appreciate the great advantage Coover & Shreve obtained for them, in getting the Dr. Howard Co. to allow the regular 50 cent size of Dr. Howard's specific, for the cure of constipation and dyspepsia, to be sold at 25 cents and have bought hundreds of bottles.

Unlike ordinary medicines for constipation and dyspepsia, the dose of Dr. Howard's specific is reduced after a few days' use, and the cure is soon complete and lasting.

If you have not already taken advantage of this chance to get a month's medical treatment for 25 cents, be sure to call at Coover & Shreve to day, for they have only a small amount of the specific on hand.

ILLINOIS PRESS MEETING.

Springfield, Ill., May 3.—The executive committee of the Illinois Press association to day decided to meet in conjunction with the National Press association at Chicago June 24, 25 and 26.

Miss Mamie O'Neil, Mrs. John Coleman and son, Miss Margaret O'Neil and John McCarty, all of Beardstown, attended the meet yesterday.

A sprained ankle may as a rule be cured in from three to four days by applying Chamberlain's Liniment and observing the directions with each bottle. For sale by all dealers.
